

QUMTAM X

Club 30 — Business Plan

The Future, Secured.

An on-chain wealth protocol built on the GGCHAIN blockchain

Website: <https://qumtamx.cloud>

Token: QMX | Chain ID: 2121217 | Payments: bUSDT

1. What is QUMTAM X?

QUMTAM X is a premium, fully on-chain wealth protocol built on the GGCHAIN blockchain. Users connect their own wallet (MetaMask), activate a package with bUSDT, and receive a fixed-price QMX token airdrop — plus five income streams through the Club 30 earning engine.

The entire system is non-custodial — there is no email/password registration. Your wallet is your account, and every transaction is transparently recorded on-chain.

- The platform is fully independent — it only uses the GGCHAIN network.
- All package payments and withdrawals are made in bUSDT.
- QMX is credited as an airdrop and locked for 3 years.

2. The QMX Token

Property	Value
Fixed Price	1 QMX = \$0.15
Total Supply	21,000,000 QMX (21 Million)
Decimals	18 (Standard ERC-20)
Lock Period	3 years (non-transferable)

On every package purchase, QMX is credited based on the bUSDT value paid (value ÷ \$0.15). This QMX stays locked for 3 years — it cannot be sold or transferred during the lock. Once the lock ends, the tokens become fully usable.

Daily Mining Rule (Mandatory)

To receive your locked QMX you must open the dApp and press "Mine" once every day (per UTC day). This secures that day's share.

- Daily share = your total locked QMX ÷ 1,095 days (3 years).
- Any day you do not mine, that day's share is permanently burned — reducing what would have unlocked after 3 years.
- The dApp's QMX Lock tab shows the daily mining button, streak counter, burn totals and your "Will Unlock" balance.

Warning: irregular mining reduces your final QMX. Make sure to log in and mine once every day.

3. How to Get Started (4 Steps)

- **Step 1** — Open the dApp, connect your MetaMask wallet (GGCHAIN is added automatically) and sign once to log in.

- **Step 2** — Enter your sponsor's referral code — you are placed automatically in the binary tree.
- **Step 3** — Buy a package directly with bUSDT from your wallet — it activates instantly after blockchain confirmation.
- **Step 4** — Start receiving locked QMX + five income streams. Mine QMX once every day (missed days burn). Withdraw bUSDT anytime (minimum \$5).

4. Packages (Six Clubs)

Club	Price (bUSDT)	QMX Received (locked)
Starter Club	\$30	200 QMX
Professional Club	\$60	400 QMX
Premiere Club	\$120	800 QMX
Tycoon Club	\$240	1,600 QMX
Executive Club	\$480	3,200 QMX
Elite Club	\$960	6,400 QMX

Start with any package — go straight for a big one or upgrade step by step. Every purchase credits fresh QMX and new income.

5. Club 30 Income Plan — Five Income Streams

(a) Sponsor Income (Direct Referral)

An instant bonus on every package activation by your direct referrals — from \$14.25 to \$380 depending on the package (paid from the 95% distribution pool; 5% platform reserve).

Commission Cap Rule (Important)

Every member earns commissions up to their own package level. If a downline buys a bigger package than yours, you receive your own package's commission — the remainder passes up to the first qualified upline (whose package is equal to or bigger than the buyer's).

- Example: your ID is \$30 (Starter) and your direct buys Elite (\$960) — you receive \$14.25, and the remaining \$365.75 goes to the Elite-level upline above you.
- If your package is equal to or bigger than the buyer's, the full commission is yours.
- The rule applies to sponsor commissions, roll-ups and level 2-10 income alike.

Keep your package upgraded to capture the full commissions!

(b) Level Income (10 Levels)

Earn from up to 10 generations of your team. Whenever anyone upgrades a package, you earn again. Per-level income by package (USD):

Level	Starter \$30	Pro \$60	Premiere \$120	Tycoon \$240	Exec \$480	Elite \$960
1	\$14.25	\$23.75	\$47.50	\$95	\$190	\$380
2	\$0.95	\$1.90	\$3.80	\$7.60	\$15.20	\$30.40
3	\$0.95	\$1.90	\$3.80	\$7.60	\$15.20	\$30.40
4	\$0.95	\$1.90	\$3.80	\$7.60	\$15.20	\$30.40
5	\$0.475	\$0.95	\$1.90	\$3.80	\$7.60	\$15.20
6	\$0.475	\$0.95	\$1.90	\$3.80	\$7.60	\$15.20
7	\$0.475	\$0.95	\$1.90	\$3.80	\$7.60	\$15.20
8	\$0.475	\$0.95	\$1.90	\$3.80	\$7.60	\$15.20
9	\$0.475	\$0.95	\$1.90	\$3.80	\$7.60	\$15.20
10	\$0.475	\$0.95	\$1.90	\$3.80	\$7.60	\$15.20
Total	\$19.95	\$35.15	\$70.30	\$140.60	\$281.20	\$562.40

(c) Auto Pool (2×2 Global Matrix)

A global 2×2 matrix — wherever anyone joins, they fill under you automatically (serially 1→2→3...) down to 10 levels, and income keeps accruing. To receive and withdraw Auto Pool income you need at least 3 active direct IDs.

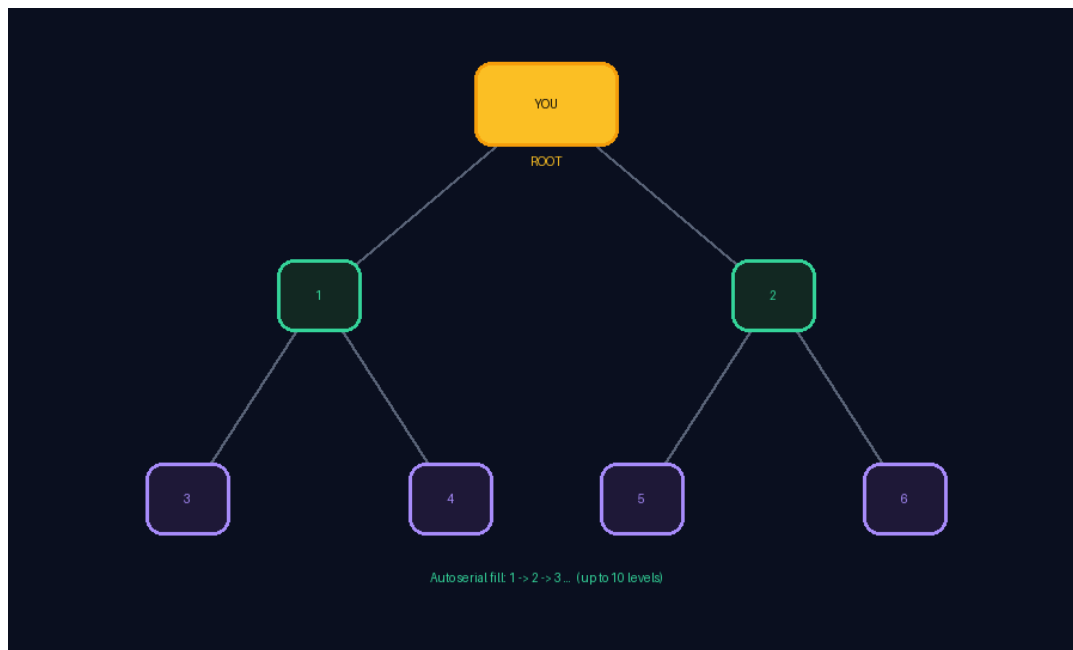

Figure: how the Auto Pool matrix fills serially.

(d) Boosting Board

Enter the board with \$15. When 2 (Level 1) + 4 (Level 2) = 6 members fill your board, you earn \$60 — then re-enter and repeat (unlimited loop).

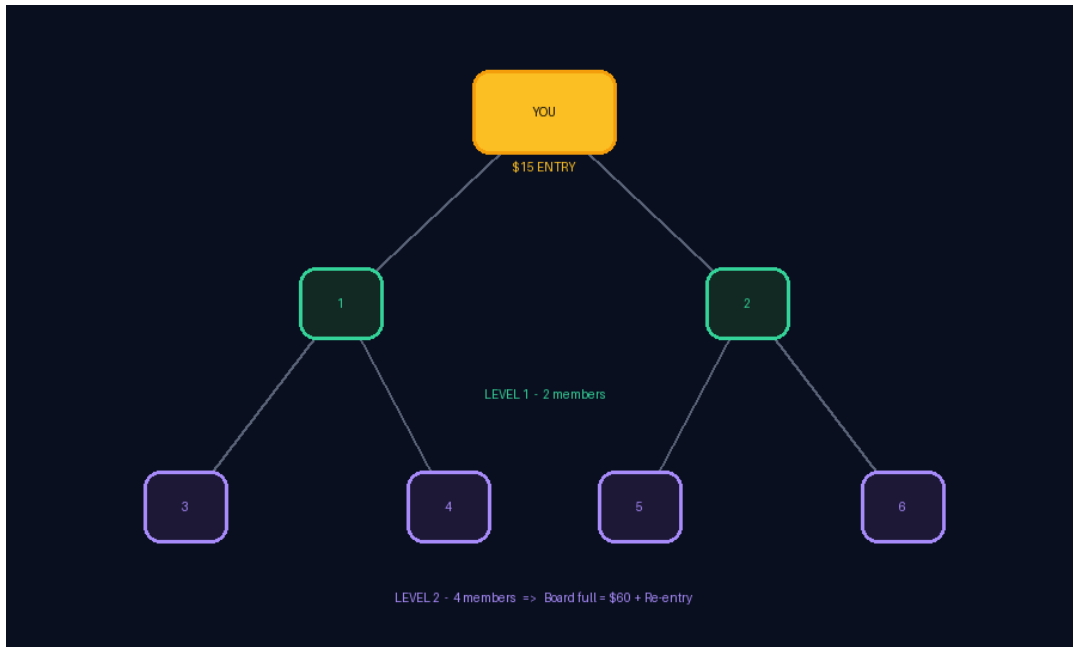

Figure: the Boosting Board completes with $2+4 = 6$ members and pays \$60.

(e) Dividend Royalty

How to qualify: complete 5 active direct referrals once and you become a lifetime royalty member — no other conditions.

- Half of the 10% withdrawal fee (5%) flows into a global dividend pool — the other half goes to the platform reserve.
- Once every day (automatically), the entire pool is split equally among all royalty members.
- How long: lifetime — for as long as the platform runs, your share is credited daily to your income balance (withdrawable).
- Formula: your daily share = $(\text{platform-wide daily withdrawals} \times 5\%) \div \text{total royalty members}$.

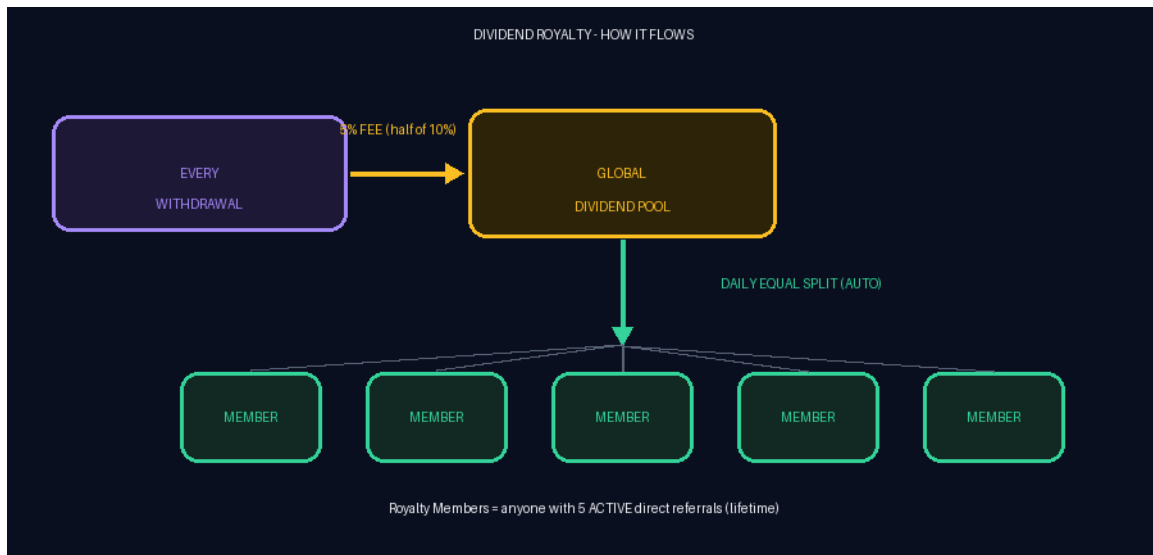

Figure: withdrawal fees → global pool → split equally among royalty members every day.

How much can royalty income be? Example (assume 50 royalty members):

Daily Platform Withdrawals	Daily Pool (5%)	Your Daily Share	Monthly Income
\$1,000	\$50	\$1	\$30
\$5,000	\$250	\$5	\$150
\$10,000	\$500	\$10	\$300
\$25,000	\$1,250	\$25	\$750
\$50,000	\$2,500	\$50	\$1,500

Chart: as platform withdrawals grow, each royalty member's monthly income grows (50-member example).

Note: royalty income depends on total platform withdrawals and the number of royalty members — the figures above are examples only, not guarantees.

(f) Sponsor Commission Roll-Up (every 3rd direct)

On your direct referrals — you keep the sponsor commission for your 1st and 2nd directs. The 3rd direct's commission rolls up to your upline. Then you keep the 4th and 5th, the 6th rolls up again — every 3rd direct's commission moves upward. If that upline is also on their own 3rd position, it keeps rolling further up to the top.

Figure: keep 1 & 2 → 3rd to upline → keep 4 & 5 → 6th to upline ... and so on.

How much can you earn as an upline from roll-up? Every 3rd-position sale in your downline sends you that package's Level-1 commission (\$14.25–\$380). Example — per 10 rolled-up sales:

Package	Income per 10 rolled-up sales
Starter \$30	\$142.50
Professional \$60	\$237.50
Premiere \$120	\$475
Tycoon \$240	\$950
Executive \$480	\$1,900
Elite \$960	\$3,800

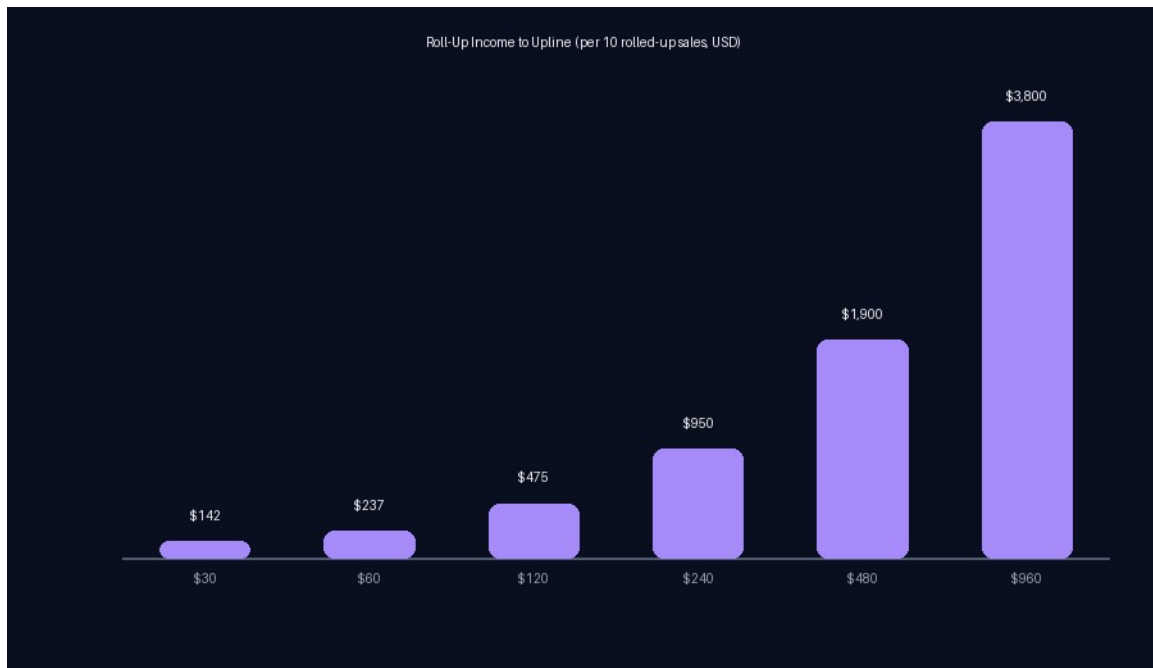

Chart: the bigger the package, the more the upline earns per rolled-up sale.

(g) Full 10-Level Roll-Up Math

Assume every member in your team brings 3 directs and the team fills 10 full levels — everyone active on the same package. Your team size becomes:

Level	Members
1	3
2	9
3	27
4	81
5	243
6	729
7	2,187
8	6,561
9	19,683
10	59,049
Total	88,572 members

How roll-ups reach you: each member's 3rd-direct commission rolls upward. The whole team generates 29,524 roll-ups, split among uplines step by step. Under the system's rules, exactly 3 roll-ups from each of levels 2-10 reach you = 27 arrivals. Every 3rd arrival passes on to your own upline, so you keep 18 — plus 2 sponsor commissions from your own directs.

The deeper your team, the higher your roll-up income:

Team Depth (levels)	Roll-up commissions you keep
2 levels	2
3 levels	4

4 levels	6
5 levels	8
6 levels	10
7 levels	12
8 levels	14
9 levels	16
10 levels	18

Your total income on a complete 10-level team (sponsor + roll-up):

Package	Direct Commission	Sponsor (2 kept)	Roll-up (18 kept)	Total
Starter \$30	\$14.25	\$28.50	\$256.50	\$285
Professional \$60	\$23.75	\$47.50	\$427.50	\$475
Premiere \$120	\$47.50	\$95	\$855	\$950
Tycoon \$240	\$95	\$190	\$1,710	\$1,900
Executive \$480	\$190	\$380	\$3,420	\$3,800
Elite \$960	\$380	\$760	\$6,840	\$7,600

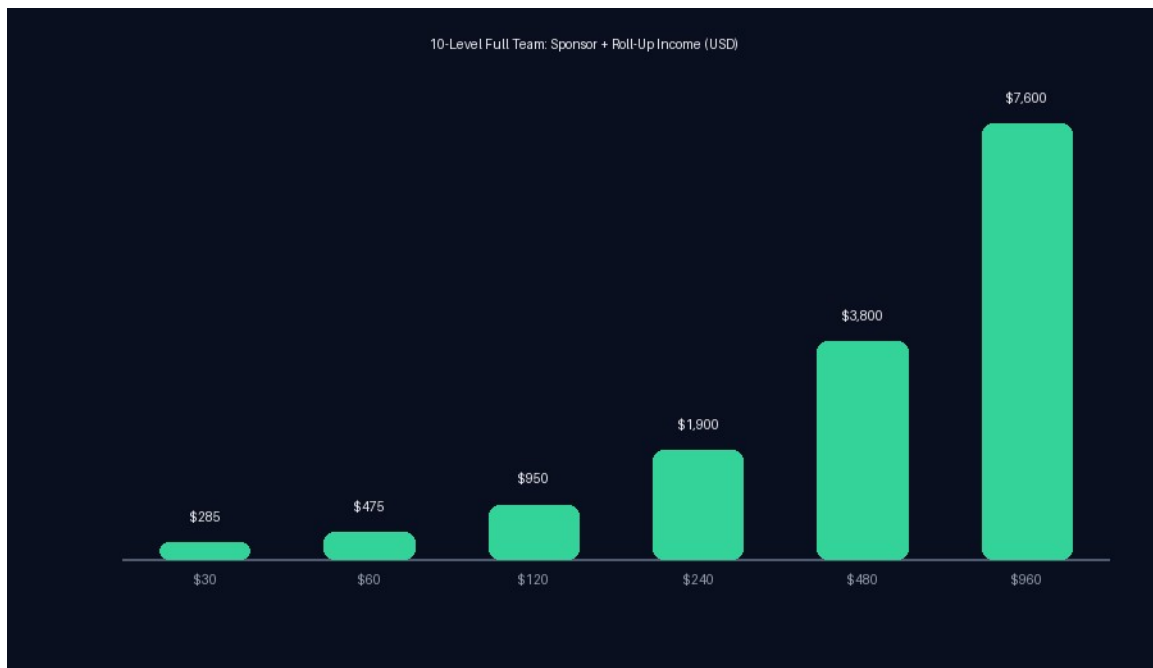

Chart: total sponsor + roll-up income on a full 10-level team, by package.

Special note: the topmost position (with no upline above) keeps all 27 roll-ups — total income then ranges from \$413.25 (Starter) to \$11,020 (Elite).

Note: the figures above are a full-team illustration (3 directs each, 10 levels, all active). Actual income depends on how your team builds — no income is guaranteed.

(h) Rank Badges & One-Time Rank Bonuses

As your team grows, your rank climbs. Reaching each new rank credits a one-time bUSDT bonus straight to your income balance (withdrawable). Ranks are determined by active directs and total team size:

Rank	Active Directs	Total Team	One-Time Bonus
Bronze	3	9	\$5
Silver	5	30	\$15
Gold	10	100	\$40
Platinum	15	500	\$100
Diamond	20	2,000	\$300
Crown	25	10,000	\$1,000

- Each bonus is paid once in a lifetime — credited automatically the moment you reach the rank.
- The dApp's Rank tab shows your badge, progress to the next rank, bonus status and the top-20 leaderboard.

6. Income Potential — with Charts

(a) Maximum Auto Pool income

The Auto Pool is a binary matrix — members double at every level (Level 1 = 2, Level 2 = 4 ... Level 10 = 1,024; total 2,046). With a full matrix, the maximum possible income by package:

Club (package)	Entry Cost	Max Auto Pool Income
Starter	\$30	\$1,941
Professional	\$60	\$4,845
Premiere	\$120	\$9,690
Tycoon	\$240	\$19,380
Executive	\$480	\$38,760
Elite	\$960	\$77,520

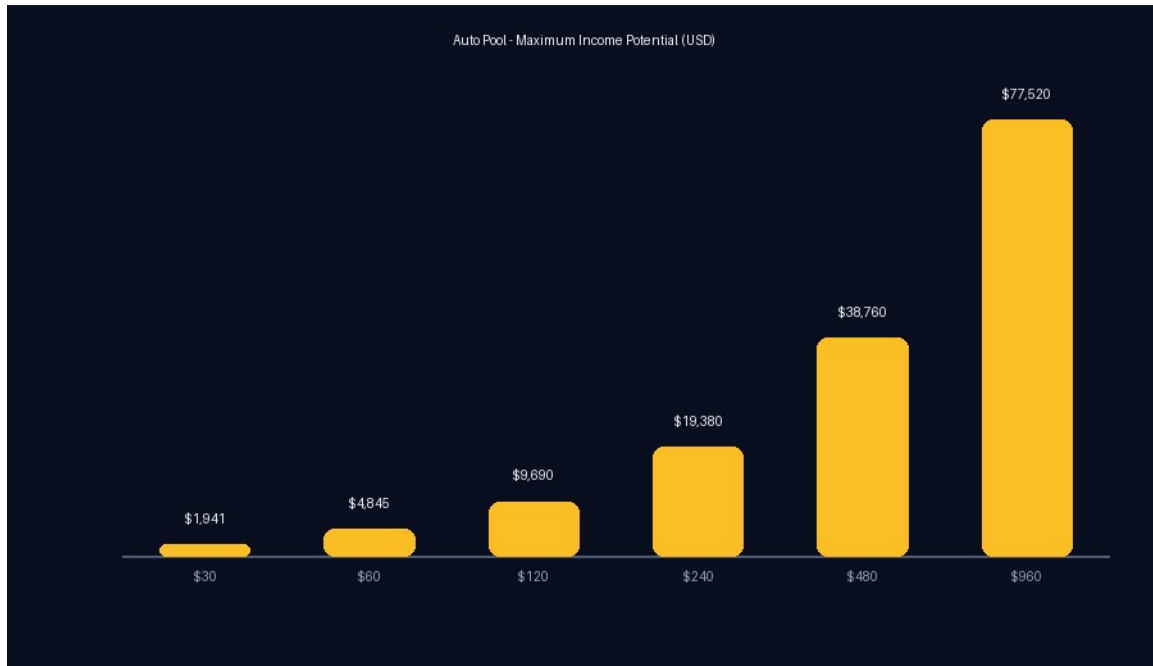

Chart: the bigger the package, the higher the maximum Auto Pool income.

(b) Boosting Board income

Each completed board pays \$60; re-entry costs \$15 — a net profit of \$45 per board. The more boards you complete, the more you earn:

Boards Completed	Gross (\$60/board)	Net Profit (\$45/board)
1	\$60	\$45
5	\$300	\$225
10	\$600	\$450
25	\$1,500	\$1,125
50	\$3,000	\$2,250
100	\$6,000	\$4,500

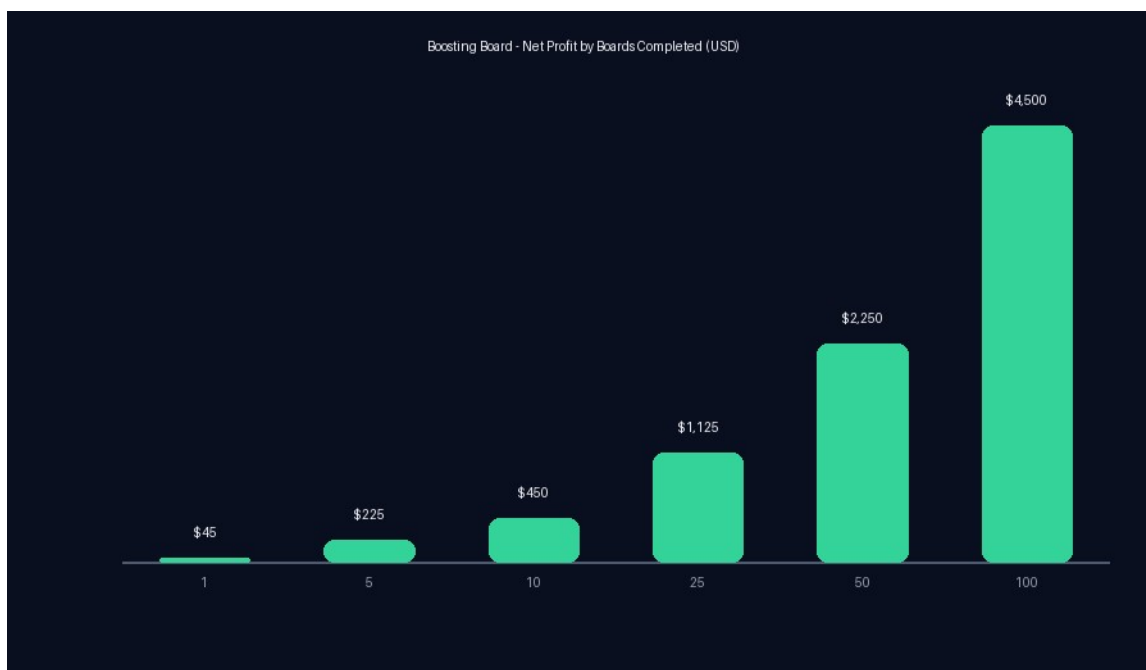

Chart: net profit grows with each completed board.

Note: the numbers above are maximum/illustrative potentials — actual income depends on your team and activity. No income is guaranteed.

7. Withdrawals

- Minimum withdrawal: \$5 (bUSDT).
- Withdrawal fee: 10% — half flows into the Dividend Royalty pool, half to the platform reserve.
- Funds are paid straight back to your connected wallet, with the on-chain transaction hash shown in your history.
- Withdrawing Auto Pool income requires at least 3 active direct IDs.

8. Roadmap

- **Phase 1 (Genesis)** — QMX token, Club 30 dApp, wallet-connect, locked airdrop and the full income engine live.
- **Phase 2 (Growth)** — Rank badges, leaderboard, dividend automation and mobile experience.
- **Phase 3 (Sovereignty)** — QMX unlock events, exchange listings, multi-asset support and on-chain governance.

9. Risk Disclaimer

Cryptocurrency and blockchain-based earnings carry risk. No income or return is guaranteed. Market values can fluctuate. Only invest what you can afford to lose. This is not financial advice — participate responsibly and at your own discretion.
